

BENDE

Quality Hungarian Style Sausages

Always made with top quality natural ingredients and naturally smoked to make this a sausage our family is proud to produce.

Sausage Excellence for Over 70 Years

A Proud Heritage

The Bende family has been in the food trade since 1935 when a young Miklos Sr. opened his first grocery store in Hungary. He ran several grocery stores in Budapest and Miskolc before immigrating with his wife and young son in 1956. Soon after arriving in the United States, the family returned to its meat cutting and grocery roots, opening the first Bende store in Chicago's Burnside neighborhood. Several stores followed, as did a reputation for preparing outstanding smoked meats. While we have grown and adopted new technologies, we still use the original old world recipes carried from Hungary by our grandfather. Using only the most authentic ingredients allows us to remain true to our high family standards and proud Hungarian heritage.

Old World Flavors

We go to great lengths to ensure that every product we sell is of the highest quality. Bende family members travel to Hungary and personally sample every product we import. We visit our suppliers to ensure their commitment to high quality and traditional ingredients. We are proud to bring you authentic Old World flavors.

We won't sell a product to you and your family if it's not good enough for ours.
